6272 Insta Puck Lock Description:

These Padlocks are designed for Commercial/Industrial applications. The Lock body conceals the shackle which defeats attempts to pry and cut. Made from 2-7/8" (73mm) wide reinforced die cast body it withstands forcible attacks. High security, rekeyable 6-pin cylinder with spool pins is virtually impossible to pick.

6200 Container Twist Lock Description:

These container twist locks are designed to connect 2 containers together vertically. Treated with a galvanized finish the twist locks will last a long time in the most rigorous environments.
